Walkerton's goal

\$30,000 towards a new chemistry analyzer for the Walkerton Laboratory

This year, the Walkerton & District Hospital Foundation has committed to funding \$448,300 of highly necessary equipment for the Walkerton hospital. The most expensive piece is a chemistry analyzer valued at \$265,000. We hope to raise \$30,000 through the 2023 Radiothon campaign to go towards this cost.

The chemistry analyzer is the hospital's mainframe for all chemistry testing - electrolytes, liver and kidney function tests, ethanol testing and cerebrospinal fluid chemistry testing. The replacement is needed as Walkerton continues its work to standarize with the rest of the 16 Inter-Hospital Lab Partnership (IHLP) sites, who are replacing their current instrumentation.

For over 100 years the Walkerton hospital has provided the best health are to residents of Walkerton, Mildmay, Formosa, Cargill, Chepstow, Paisley and area. The WDHF is proud to partner with the hospital to provide the financial resoures necessary to help improve patient care.

Please consider helping us meet the current financial need by making a donation. From all of us at theh Foundation, we thank you for your ongoing support.

I would like to be a healthcare hero
